

## Stock & Station Agent's Licence

CPP40407 – Certificate IV in Property Services (Stock & Station Agency)

### Course Brochure

We are pleased to announce that the Australian College of Professionals is conducting a full stock & station agent's licensing course over sixteen (16) days for people to undertake an in-depth study of the entire stock & station process. This is a practical-based course and provides course participants with opportunities to acquire and practice new skills in all areas relating to stock & station.

The courses listed here are based on the premise that you have not already completed the introductory Certificate of Registration course.

You may be assessed for Recognition of Prior Learning (RPL) or Recognition of Current Competence (RCC) for one or more modules. This means that you will not need to attend training for that module. Assessment is undertaken on an individual basis and determination of RPL or RCC is based on the evidence of your previous experience and learning.

The successful completion of this full training program will mean that the person gains the award of a Certificate IV in Property Services (Stock & Station Agency).

**The Certificate of Registration** course is required for all persons to work in the real estate industry. It also forms the basis for the licensing course. Please note that if you are completing all of the licensing courses at the same time, you may be assessed as only needing to complete the first day of the Certificate course. This assessment is undertaken on an individual basis and is at the discretion of the College Principal. This would also mean a reduction in the cost for this module. The four Units of Competence for this training are:
